SUMMARY

Frontend Engineer specializing in React and TypeScript, with 10 years of full-stack experience delivering public-sector platforms for national governments in Greece and the EU. Strong background in complex, form-heavy applications, state management with Redux Toolkit and RTK Query, and component library development. Additional depth in PHP (Laravel, Yii) back ends.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Redux Toolkit, RTK Query, React Hook Form, HTML5, CSS3, Responsive Design, Web Accessibility (WCAG), REST APIs

Backend: PHP 8, Laravel, Yii (1.1 / 2), MySQL, REST API design

Tools & Practices: Git, Jira, Figma, Vite, Jenkins (CI/CD), Docker (basics), Agile/Scrum, Form.io, Joomla

WORK EXPERIENCE

Software Engineer — React 08/2025 – 05/2026

Netcompany S.A. | Athens, Greece (Hybrid)

- Contributed to the design and implementation of a public-sector solution, for the Lithuanian government as part of an agile delivery team.
- Built complex, schema-driven tax workflows using React Hook Form extended with a custom context layer and Form.io JSON schemas, enabling dynamic form generation across the portal
- Delivered reusable widgets for a shared component library (cms-ui-core) used across multiple government portal modules, including a user identification card widget with QR and barcode generation
- Collaborated closely with the backend team to design APIs, debug, integration issues, and improve end-to-end performance and reliability.
- Debugged and resolved cross-stack production issues in collaboration with backend teams, including a data-prefill defect spanning the React frontend and backend services
- Translated Figma designs into production-ready, accessible UI in close partnership with UI/UX designers

Full-Stack Web Developer — PHP / React 11/2021 – 07/2025

Quality & Reliability S.A. | Athens, Greece (Hybrid)

- Sole developer of the Safe Water Sports platform for the Greek Ministry of Maritime Affairs, used by Hellenic Coast Guard officials nationwide to inspect and enforce watersport safety regulations (Yii 1.1, PHP)
- Gathered requirements directly from Ministry and Coast Guard stakeholders and translated them into features, owning the full delivery cycle end to end
- Optimized critical application software, enabling HCG officials to increase violation detection rates for watersport companies while significantly improving maritime safety and enforcement efficiency.
- Maintained and engineered new features for the Safe Water Sports cross-platform mobile application (React Native & Expo Go), significantly enhancing the user experience and improving data accuracy.
- Built Laravel-based features for public- and private-sector projects, and developed React frontends for Greek public sector organizations

Full-Stack Web Developer — PHP 09/2019 – 11/2021

idcs.gr | Athens, Greece (Hybrid)

- Designed and developed custom Joomla components and modules with PHP, JavaScript, and jQuery, tailored to client requirements
- Managed content and site maintenance for high-traffic client websites, including Iaso and Babyzone

Full-Stack Web Developer — PHP 02/2019 – 09/2019

Doersnet | Athens, Greece (Hybrid)

- Developed Yii2 components and modules spanning frontend and backend functionality (PHP OOP, JavaScript, jQuery)
- Authored onboarding documentation for all delivered applications, and provided technical support to clients

Full-Stack Web Developer (Freelance) 10/2015 – 01/2019

Self-employed | Trikala, Greece

- Delivered websites and web applications for local businesses and organizations using PHP, Joomla and JavaScript

Earlier Roles 08/2014 – 01/2018

IT Consultant, Mushrooms Museum Meteora (2017–2018) · Junior Web Developer, Webcolors (2014–2015) · Junior Web Developer (Remote), Studio Ace of Spade, Indiana, USA (2014)

EDUCATION

MSc in Applied Informatics — University of Thessaly, Greece (2021)

MSc in e-Commerce — Kingston University of London, Greece (2014)

BSc in Computer Science — University of Ioannina, Greece (2011)

CERTIFICATIONS

The Modern React Bootcamp (Hooks, Context, NextJS, Router) — Udemy, 39 hours
