SUMMARY

Frontend engineer with 7+ years in web development and ~3 years building production React and TypeScript applications, most recently for large public-sector platforms in Greece and Lithuania. I work mainly on complex forms, shared component libraries and accessible (WCAG 2.1) interfaces built from Figma designs. A full-stack background in PHP/Laravel means I'm comfortable working on the API side with backend teams.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Redux Toolkit / RTK Query, React Hook Form, Tailwind CSS, HTML/CSS, WCAG 2.1
Mobile: React Native / Expo
Backend: PHP 8, Laravel, Yii, MySQL, REST APIs
Tools: Git, Docker, Jira, Vite, GitHub Copilot, Cursor, Claude, Agile/Scrum

WORK EXPERIENCE

Software Engineer 08/2025 – 05/2026
Netcompany S.A. | Athens, Greece (Hybrid)

- Built frontend modules for SOLON, a national tax portal for the Lithuanian government, using React, TypeScript, Redux Toolkit/RTK Query and React Hook Form, on a schema-driven form architecture.
- Contributed 4 reusable widgets to the shared component library (cms-ui-core) used across nearly 20 modules, including an identification-card widget with QR and barcode rendering.
- Implemented Figma designs as responsive, WCAG 2.1-compliant screens, working directly with the UX team.
- Fixed race conditions in asynchronous data prefill by reworking state synchronization together with the backend team.
- Took part in daily peer code reviews within an Agile/Scrum team.

Full-Stack Web Developer 11/2021 – 07/2025
Quality & Reliability S.A. | Athens, Greece (Hybrid)

- Developed iOS/Android features in React Native and Expo for Safe Water Sports, a nationwide app used by 50,000 citizens and field inspectors.
- Built React/TypeScript frontends for Greek public-sector administrative systems.
- Sole developer of the Hellenic Coast Guard's incident-tracking system (PHP/Yii2, REST APIs), used by every Port Authority in Greece to record sea accidents, drownings and inspections; worked directly with the Ministry of Maritime Affairs on requirements.
- Maintained and upgraded production Laravel applications for public-sector platforms, optimizing MySQL queries and overall backend performance.

Full-Stack Web Developer 09/2019 – 11/2021
idcs.gr | Athens, Greece (Hybrid)

- Built custom Joomla components and modules with PHP, JavaScript and jQuery for client sites such as iaso.gr, babyzone.gr and Carglass.gr. Also Developed a module that sent pregnant users week-specific newsletters based on their pregnancy week.
- Handled the full cycle from requirements to deployment, working directly with clients.

Full-Stack Web Developer 02/2019 – 09/2019
Doersnet | Athens, Greece (Hybrid)

- Developed full-stack Yii2 features (PHP OOP, JavaScript, and jQuery) for a social networking platform with user profiles, feeds and a rewards/gamification system.

EDUCATION & ADDITIONAL INFO

MSc in Applied Informatics — University of Thessaly (2021) | **MSc in e-Commerce** — Kingston University (2014)
BSc in Computer Science — University of Ioannina, Greece (2011)
Languages: Greek (Native), English (C2), German (A1) | **Military:** Completed
Interests: Byzantine Ecclesiastical music diploma and choirs | Running | Jiu Jitsu | Playing the guitar | Retro video games
